

REMARKS

The foregoing amendments in claims 1, 8, 9 and 10 limit the transmission processing selection to "local to the target device." These claims were not amended in the previous Action. These amendments are believed to expressly provide the locational limitation that the Examiner proposed at the interview, and which Applicants argued in the previous Amendment as already inherent in the claims.

In any event, those amendments are believed to clearly place the application in condition for allowance. Entry of the Amendment and allowance of the application are respectfully solicited.

Applicants submit herewith a Petition for a one-month extension of time to respond, to an including October 12, 2006, together with an authorization to charge our Deposit Account No. 04-1105 for the appropriate fees.

Dated: October 12, 2006

Respectfully submitted,

By 

Peter J. Manus
